CONTENTS

Volume 30. No. 1—September

Editorial Announcement 1

Books Received 2

REVIEW ARTICLE
'Protozoan' infections in the immunocompromised patient—the parasites and their diagnosis 3
Girdwood, R. W. A.

Production of an extracellular toxic complex by various strains of *Pseudomonas cepacia* 17
Straus, D. C., Lonon, Miriam K., Woods, D. E. and Garner, C. W.

Detection of antibodies to common antigens of pathogenic and commensal *Neisseria* species 23
Cann, Kathryn J. and Rogers, T. R.

Resistance of mice to genital infection with *Neisseria gonorrhoeae* 33
Johnson, A. P., Tuffrey, M. and Taylor-Robinson, D.

Humoral immunity in mice mediated by monoclonal antibodies against the A and M antigens of *Brucella* 37
Limet, J. N., Bosseray, N., Garin-Bastuji, B., Dubray, G. and Plommet, M.

Scanning electronmicroscopy of *Staphylococcus aureus* and *Enterococcus faecalis* exposed to daptomycin 45
Wale, Linda J., Shelton, A. P. and Greenwood, D.

Strategies for molecular characterisation of methicillin- and gentamicin-resistant *Staphylococcus aureus* in a Canadian nosocomial outbreak 51
Bigelow, N., Ng, L.-K., Robson, H. G. and Dillon, J. R.

Characterisation of a fimbrial, mannose-resistant and eluting haemagglutinin (MREHA) produced by strains of *Salmonella* of serotype Sendai 59
Old, D. C., Yakubu, D. E. and Senior, B. W.

Purification and characterisation of *Clostridium difficile* toxin A by bovine thyroglobulin affinity chromatography and dissociation in denaturing conditions with or without reduction 69
Kamiya, S., Reed, P. J. and Borriello, S. P.

Intracellular destruction of salmonellae in genetically resistant mice 79
Lin, F. R., Hsu, H. S., Mumaw, V. R. and Nakoneczna, Irene

Volume 30. No. 2—October

REVIEW ARTICLE
Chromosomal DNA fingerprinting—a new method of species and strain identification applicable to microbial pathogens 89
Owen, R. J.

Improved ELISA with immunoabsorbent-purified mycobacterial antigen for serodiagnosis of tuberculosis 101
Thongkrajai, P., Lulitanon, V. and Chamnanvanakit, C.

The virulence of *Enterobacter cloacae* and *Serratia marcescens* in experimental bladder infection in diabetic mice 105
Obana, Y. and Nishino, T.

Haemolysins and extracellular enzymes of *Listeria monocytogenes* and *L. ivanovii* 111
Barclay, R., Threlfall, D. R. and Leighton, I.

Separation of properties of the haemolysins and extracellular enzymes of *Listeria monocytogenes* and *L. ivanovii* 119
Barclay, R., Threlfall, D. R. and Leighton, I.

Characterisation of monoclonal antibodies for detection of *Mobiluncus* spp. in genital specimens 129
Ison, C. A., Kolator, B., Reid, J. H., Dermott, E., Clark, J. and Easmon, C. S. F.

Mutation induced by vibriophage PS166 infection changes biotype and phage type of *Vibrio cholerae* 137
Mitra, S. N.

Selection of a *Brucella* vaccine strain of low residual virulence by chemical mutagenesis 143
Zhao, W.-R., Wendoso, Hasi, Qin, Y.-X., Weng Wang and Lu, S.-L.

Quantification of the leucocyte influx into rabbit ileal loops induced by strains of *Salmonella typhimurium* of different virulence 149
Wallis, T. S., Hawker, R. J. H., Candy, D. C. A., Qi, G.-M., Clarke, G. J., Worton, K. J., Osborne, M. P. and Stephen, J.

Announcements 157

Books Received 159

PROCEEDINGS OF THE PATHOLOGICAL SOCIETY OF GREAT BRITAIN AND IRELAND

Volume 30. No. 3—November

The evaluation of a typing scheme for coagulase-negative staphylococci suitable for epidemiological studies 161
Ludlam, H. A., Noble, W. C., Marples, R. R. and Phillips, I.

The epidemiology of peritonitis caused by coagulase-negative staphylococci in continuous ambulatory peritoneal dialysis 167
Ludlam, H. A., Noble, W. C., Marples, R. R., Bayston, R. and Phillips, I.

Radiometric studies on the use of selective inhibitors in the identification of *Mycobacterium* spp. 175
Collins, T. and Levett, P. N.

Immunosuppressive effect of cyclosporin A on resistance to systemic infection with *Candida albicans* 183
Vecchiarelli, A., Cenci, E., Marconi, P., Rossi, R., Riccardi, C. and Bistoni, F.

Treatment of a murine model of systemic candidiasis with liposomal amphotericin B bearing antibody to *Candida albicans* 193
Hospenthal, D., Gretzinger, K. and Rogers, A.

Effect of endotoxin on colonisation of *Campylobacter jejuni* in infant mice 199
Hänninen, Marja-Liisa

Serum antibodies to giardial surface antigens: lower titres in persistent than in non-persistent giardiasis 207
Vinayak, V. K., Kumkum and Khanna, R.

The influence of cultural conditions on the expression in *Salmonella typhimurium* of an antigen related to cholera toxin 213
Qi, G.-M., Clarke, G. J., Wallis, T. S. and Stephen, J.

Production and characterisation of monoclonal antibodies to Verotoxins 1 and 2 from *Escherichia coli* of serotype O157: H7 219
Padhye, V. V., Zhao, T. and Doyle, M. P.

The bactericidal activity of DR-3355, an optically active isomer of ofloxacin 227
Lewin, C. S. and Amyes, S. G. B.

The susceptibility of germ-free, oestradiol-treated, mice to *Mycoplasma hominis* 233
Furr, P. M., Hetherington, C. M. and Taylor-Robinson, D.

Announcements 237

Volume 30. No. 4—December

Changes in penicillinase-producing *Neisseria gonorrhoeae* isolated in London 239
Ison, C. A. and Easmon, C. S. F.

Production of "virulence factors" by "epidemic" methicillin-resistant *Staphylococcus aureus in vitro* 245
Jordens, J. Zoe, Duckworth, Georgia J. and Williams, Rosamund J.

Is resistance to novobiocin a reliable test for confirmation of the identification of *Staphylococcus saprophyticus?* 253
McTaggart, Lesley A. and Elliott, T. S. J.

Cultural and electronmicroscopic studies of the effect of penicillin on tolerant oral streptococci 267
Holbrook, W. P., Kristinsson, K. G., Carley, Amanda J. and Gunnarsdóttir, Steinunn

Epidemiological typing of *Streptococcus pyogenes* by pyrolysis mass spectrometry 273
Magee, J. T., Hindmarch, J. M., Burnett, I. A. and Pease, A.

The haemagglutinins and fimbriae of *Proteus penneri* 279
Yakubu, D. E., Old, D. C. and Senior, B. W.

Adherence of *Pseudomonas aeruginosa* to respiratory epithelium and the effect of leucocyte elastase 285
Plotkowski, M. C., Beck, G., Tournier, J. M., Bernardo-Filho, M., Marques, E. A. and Puchelle, E.

Occurrence of K1, K5 and O antigens in *Escherichia coli* isolates from patients with urinary tract infections or bacteraemia 295
Devine, Deirdre, A., Robinson, Lena and Roberts, A. P.
